Brief Biography

Dr Lesley Phillips is the **author of *Intuition and Chakras***, a book that helps you work with energy to safely open your unique profile of psychic abilities. What seems extra-ordinary is ordinary. The supernatural is natural and **there is nothing peculiar about being psychic**. Rev. Dr. Lesley Phillips is a spiritual teacher, and energy master focused on helping people access their personal intuitive guidance. **Founder, School of Intuition, an online psychic development school**, she's taught 1000's over the last 20 years in classes, readings, healings and meditation. Lesley is an experienced speaker and hosts an **award-winning radio show and podcast called *Unlocking Your Truth***. Her goal is to help people shift from a sense of fear and mystery about their energy to a state of love and mastery. She is an **ordained minister, spiritual counselor and teacher** (C.D.M. Spiritual Teaching Center, WA, USA). Her Ph.D. is in natural product discovery. She used to search the Earth for new medicines, and was a biotech executive. This **blend of scientist and mystic** appeals to people who wish to connect intellect and intuition. She also wrote a spiritual adventure story called *The Midas Tree* to bring her powerful meditation techniques to a younger audience.
